COVER LETTER

Dear Sir or Madam,

Currently in Leeds, I hope to apply for the position of Web Designer.

I graduated with Diploma in Web Design from EmWeb School in Paris.

I've acquired 1 year of experience working within Bamb Media's company as a Web designer established in Manchester, in addition the experience at school for 3 years and also personal works.

I'm really motivated to become integrated into the profession of a Web designer.

This will afford myself to learn a job that excites me and also allow me to apply the knowledges I have and obtain practical experience in actual situations.

I would be possibly interested to learn Magento whether you work with it.

Moreover I've made up my mind to change country to enhance my English, for travelling and learning more about this job (many English tutorials).

At the moment, my English level is advanced.

My webdesigner studies have given me great hope and expectations, however I'm someone who's autodidact and therefore learn often by myself.

To put in a nutshell, they've taught me to handle the following designing software: Adobe Photoshop, Illustrator, Dreamweaver and Premiere Pro.

As well as, front-end web technologies such as HTML5, CSS3, JavaScript, Responsive Design with the Bootstrap framework for a declination all over supports (mobile, tablet and desktop) and the CMS fonctionment (highly proficient with Wordpress).

Along, advanced knowledge with SEO, hosting and local or extended network.

For that matter, you can find out all of my skills with the CV enclosed.

I am available to meet you at your convenience and would be happy to provide you with any additional information should you require it.

I look forward to hearing from you,

Sincerely,

Jeremy Merly.
